

1.5 Asset Management Strategy

The Leader is the Executive member with responsibility for assets. The Head of Commercial Services is the current designated Corporate Property Officer (CPO). The CPO is authorised to take the lead on asset management planning across all services thus ensuring that property assets are regarded throughout the Council as corporate assets.

This strategic approach ensures that the Council's business and property plans support its key objectives and inform its spending decisions. The alignment of the corporate vision with service business plans, the Medium Term Financial Plan and Capital Strategy provides a stable context in which to make informed decisions and deliver the right outcomes. Further, it provides the opportunity to shape the property portfolio to efficiently support the delivery of services and to hold, acquire or occupy only those properties that support the aims of the Council. Property assets represent the Council's largest physical resource in financial terms and they underpin all service activities;

- a) For the purpose of direct service delivery (such as parks, gardens and leisure centres);
- b) To support service delivery (for example administrative offices and depots); and
- c) To support the Council's wider policy objectives. This part of the portfolio is varied: Many assets have been made available for social or sporting purposes or are retained for a range of reasons such as a potential to contribute to future regeneration schemes or provide workspace for local employment provision. In addition, the portfolio provides a valuable revenue income, (approx. £8.43 million 2017/18), which in turn helps to support the Council in delivering important services to its residents.

The Council's corporate property function sits as part of the Economy and Assets Service and is overseen and supported by the Capital Review Group. The overview below summarises the Council's strategic property aims, asset priorities and how they are managed and monitored.
