

To; TDC Licensing

I would like to post my intentions to submit an appeal to the committee about the continued use of my taxi over the ten year rule.

My number plate is FL56ETK and my taxi plate number is 163.

The car is very clean and tidy; also it's running very well.

I wanted to change to a newer technology; however the cost of the new cars has shot up in price suddenly and put me in a difficult position.

So I can stay in business and provide for my family would like to ask for an extension to the rule.

If however the committee feel that an extension of a year is out of the question then perhaps they may consider six months, as it will give me more time to formulate plan "B".
