

OVERVIEW & SCRUTINY COMMITTEE

28 MAY 2019

Present:

Councillors Bullivant (Chairman), Eden (Vice-Chairman), Cook, D Cox, H Cox, Daws, Foden, Goodman-Bradbury, Gribble, Jenks, Morgan, Mullone, Nuttall, Nutley, Orme, Parker-Khan, J Petherick, Peart, Purser and Rollason

Members in Attendance:

Councillors Clarence, Dewhurst, Haines, G Hook, J Hook, Macgregor, Phipps, Swain, Taylor and Wrigley

Apologies:

Councillors Austen, Evans, Hayes, Hocking, Keeling, Parker, Patch, L Petherick, Thorne and Tume

Officers in Attendance:

Chris Braines, Waste & Cleansing Manager
David Eaton, Environmental Protection Manager
Rebecca Hewitt, Community Safety and Safeguarding Manager
Fergus Pate, Principal Delivery Officer
Trish Corns, Democratic Services Officer
Graham Davey, Housing Enabling Manager

41. MINUTES

The minutes of the meeting held on 4 March 2019 were confirmed as a correct record and signed by the Chairman.

42. DECLARATIONS OF INTEREST

Councillor D Cox declared an Appendix B Paragraph 12 interest as Trustee of the Chudleigh Fridge Recycling Group, in relation to minute 5 below.

43. PUBLIC QUESTIONS (IF ANY) UNDER COUNCIL PROCEDURE RULE 5.8(H)

There were no public questions.

44. COUNCILLOR QUESTIONS (IF ANY) UNDER COUNCIL PROCEDURE RULE 5.8(I)

The following questions were asked by Councillor Purser. The answers were given by the Chairman of the Committee.

Question 1

At the recent elections a number of constituents asked where they could find out information about all candidates standing in a ward. With modern communications many asked why there was not a website.

I would like O and S to consider setting up a task and finish group to look into the potential for Teignbridge district council to host a webpage where candidates could post a photo and say 150 words. I appreciate there will be a significant number of editorial issues but I believe it is the way forward and worthy of investigation.

Answer

It would not be in the remit of the Council to set up webpage to host information for candidates (individual or groups), on impartiality grounds.

Question 2

Being a strong advocate of solar panels and battery storage the failure of developers to add these to new houses with appropriate roof orientation is not acceptable in the current climate.

I understand new house builders could be required to provide solar panels and battery storage, where appropriate, by use of planning permission powers.

I would like O and S to set up a task and finish group to consider this proposal.

Answer

The Council has declared a Climate Change emergency and an Action Plan will be brought back to Council in the next six months. The solar panel issue should be considered as part of the climate review.

Councillor Purser referred to the implementation of instructions covering building design ahead of the climate review and whether any changes, improvements, or modifications should be recommended. The Chairman advised Councillor Purser to submit a request for the Committee to assess this issue.

45. COMMUNITY ACTION GROUP (CAG) DEVON - PRESENTATION BY BEN BRYANT DEVON COMMUNITY ENGAGEMENT PROJECT OFFICER

The Committee welcome Ben Bryant, Devon Community Engagement Project Officer with the Community Action Group (CAG) Devon. Mr Bryant advised how CAG could help communities across the District, and the kinds of projects already happening. The work of the group was to provide the tools to local community groups to progress projects to reduce, reuse and recycle goods leading to zero waste recycling, and join the Devon Community Recycling Network for greater community cohesion. Successful projects across the county included repair cafes, clothes swap, plastic reduction, composting workshops reducing food wastage, and surplus food cafes.

Mr Bryant advocated that Councillors could lead the way for their communities in supporting community heroes and projects, and advising them to sign up to CAG Devon.

The Committee thanked Mr Bryant for his informative and inspirational presentation.

46. PROVISION OF PITCHES FOR GYPSY AND TRAVELLERS

The Housing Enabling and Development Manager presented the report circulated with the agenda. The report updated the Committee in respect of progress made in meeting the Council's Gypsy and Traveller pitch provision. The Council had ongoing consultation with the community via the Teignbridge DC Gypsy and Travelers Forum in relation to transit pitches. The provision of pitches across the district was being met. The Forum had been in existence for at least ten years. The membership was open to anyone from the travelling community and were public meetings.

The Committee also welcomed Sabrina Thomas, Devon County Council's Gypsy and Travellers Liaison Officer. In response to questions Ms Thomas advised that there would be an increase in unauthorised sites if the number of authorised sites did not meet the targets. There were a similar level of unauthorised encampments across Devon. There was a coordinated partnership approach across Devon to deal with this issue.

It was noted that there was no longer a County dedicated traveller education post-holder covering schools and colleges, due to budget cutbacks.

Resolved

1. The progress made in respect of the delivery of permanent gypsy and traveller pitches in Teignbridge be noted.
2. The actions being taken to meet the need for transit pitches in Teignbridge be endorsed.
3. The work taking place with Devon County Council and the Police in addressing unauthorised use of land by gypsies and travellers in a coordinated way across the County of Devon be noted.

47. COUNCIL STRATEGY T10 PROGRAMME OVERVIEWS

Two presentations were made on the work being carried out, as part of the overall Council Strategy for the period 2016 - 2025, in relation to two of the Teignbridge Ten super-projects. These are ten connected areas of work, which will each have a widespread impact on the economy, community wellbeing, and the environment.

David Eaton –Environmental Protection Manager, and Chris Braines – Waste and Cleansing Manager presented the work of two of the programmes: *Zero Heroes and Clean Scene*.

The presentations are attached to the minutes.

It was noted that many of the issues would be picked up with the Council's declaration of a climate change emergency.

48. SOUTH EAST DEVON HABITAT REGULATIONS PARTNERSHIP (SEDHRP)

The Minutes of the SEDHRP Executive meeting held on 29 April, 2019 circulated with the agenda were noted.

49. CALL-IN SEDHRP EXECUTIVE MINUTES 29 APRIL 2019

Councillors Wrigley, the Council's representative on the South East Devon Habitat Regulatory Partnership Executive Committee, presented his call in outlined below, which was supported by Councillors Foden, L Petherick, J Petherick and Taylor.

"I request that decisions made at the meeting of the South East Devon Habitat Regulatory Partnership Executive Committee meeting of the 29th April 2019 be reviewed.

Specifically item 7 (relating to the annual business plan and the 5 year delivery plan) items:

"3. that the adjustment of the Habitat Mitigation Officers contracts to permanent status to align with the funding allocated in the mitigation strategy be approved."

"4. that the retention of the Devon Loves Dogs project Coordinator for 5 years from November 2019 and funding for a used vehicle from May 2019 as outlined in Section 2 be approved.

5. that redirecting the funds outlined in section 3 to cover the associated costs of 4. Above be approved."

Item 3 on the grounds that no performance reviews or job evaluation changes have been evidenced, and that ongoing funding has not been secured or agreed.

Item 4 (and 5) on the basis that the need of a car (at £18K) has not been evidenced, nor the evaluation of other potential solutions. In addition the role is intended to encourage people to walk dogs locally, rather than travel by car to areas in need of habitat preservation, and as such could be seen to be counter-productive to the task in hand."

The report of the Principle Delivery Officer circulated with the agenda at pages 31 to 59, which included the Partnership's 2019-20 Business Plan and 5 year Delivery Plan, provided background to the Habitat Regulations and the joint Executive Committee. The report also provided evidence to justify the: adjustment of the Habitat Mitigation Officers contracts to permanent status to align with the funding allocated in the mitigation strategy; the retention of the Devon Loves Dogs project Coordinator for 5 years from November 2019; and

funding for a used vehicle from May 2019.

Resolved

That Councillor Wrigley, as the Council's appointed representative on the Partnership Executive Committee; asks the questions of the Partnership Executive Committee, and gathers information on procedures that are in place to evidence the work of the strategy and the officer posts that were the subject of the call in; and reports back to this Committee on the outcome of discussions with the Partnership Executive Committee.

50. SAFEGUARDING

Consideration was given to the report circulated with the agenda which was presented by the Community Safety and Safeguarding Manager. The report detailed the work undertaken by the community safety and safeguarding team in relation to safeguarding the District's children, young people and vulnerable adults.

It was noted that a more detailed Members briefing session would be held later in the year.

Resolved

That the report be noted.

51. EXECUTIVE FORWARD PLAN

The Executive Forward Plan, circulated with the agenda, was noted.

52. WORK PROGRAMME

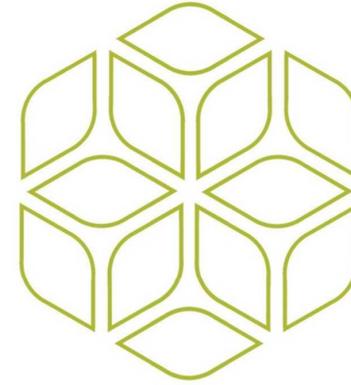

The Committee's work plan circulated with the agenda was received and noted.

Zero Heroes

Programme Overview

David Eaton
Environmental Protection Manager

28th May 2019

Programme Aims

As a large organisation it is important we reduce our environmental impact. We will take the lead with our own waste management by reusing and recycling more, reducing our energy consumption, and encouraging working practices that reduce our environmental footprint

Zero Heroes Project Team

Lizzie Burston – Recycling

Liz Gingell – Business Improvement

Daron Hand – Property Maintenance

Tom Clayton – Utilities and Energy

Ingrid Dean – Leisure Centres

Sarah Holgate - Resorts

Lucy Ford - Procurement

Zoe Farmer – Home Energy

Monitor energy consumption from council buildings and estates and develop projects to further reduce our consumption and spend on utilities

Progress over the past three years

- Electricity, Gas and Water consumption monitored
- Feasibility of installation of pool covers at Teignmouth Lido.

24

What's next?

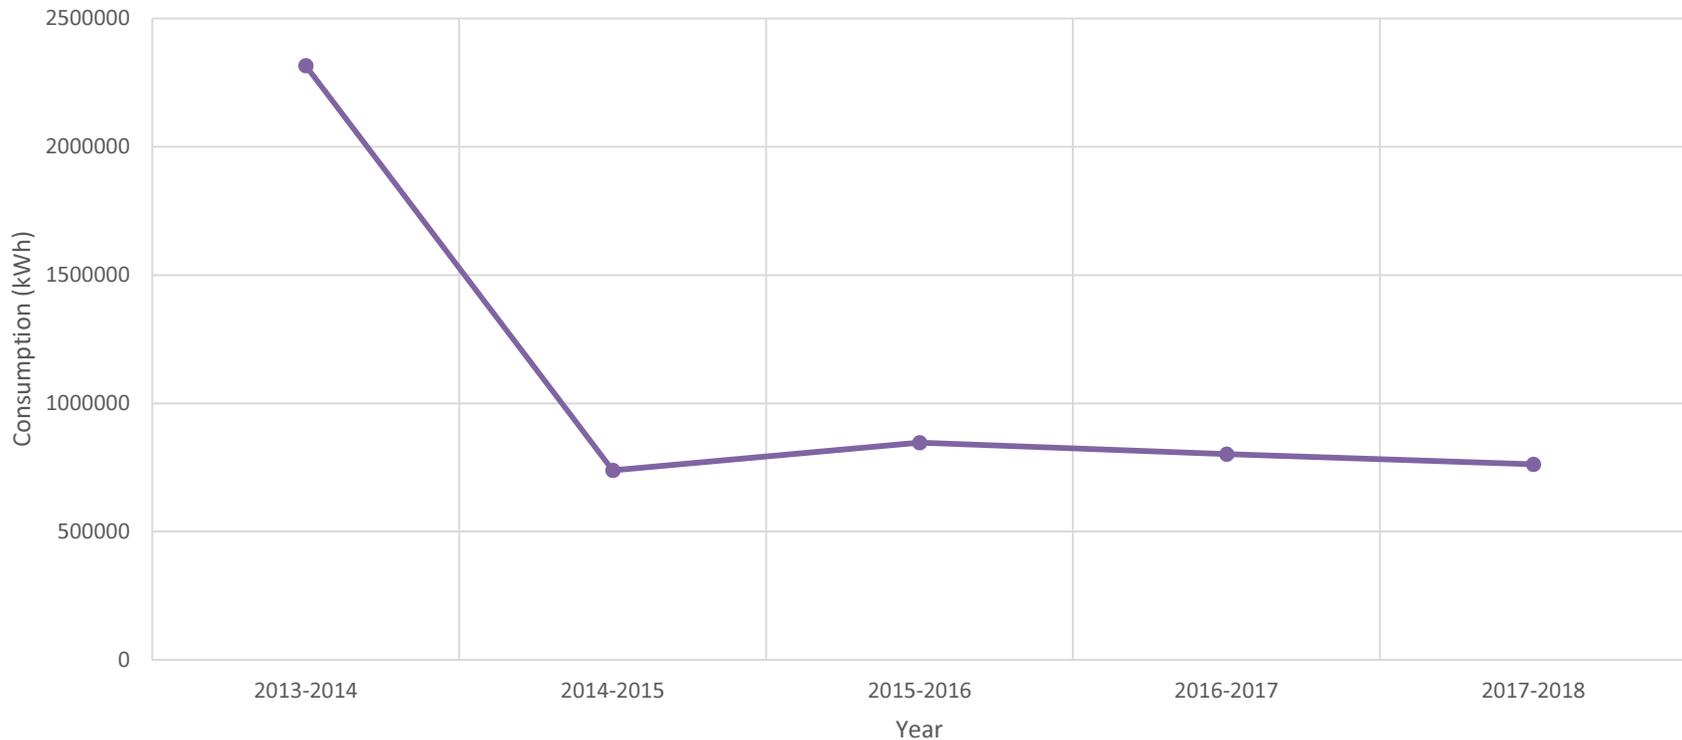

- Boiler replacement project for Forde House campus
- Top 10 Energy consuming sites

Monitor energy consumption from council buildings and estates and develop projects to further reduce our consumption and spend on utilities

Electricity Consumption 2013-2018

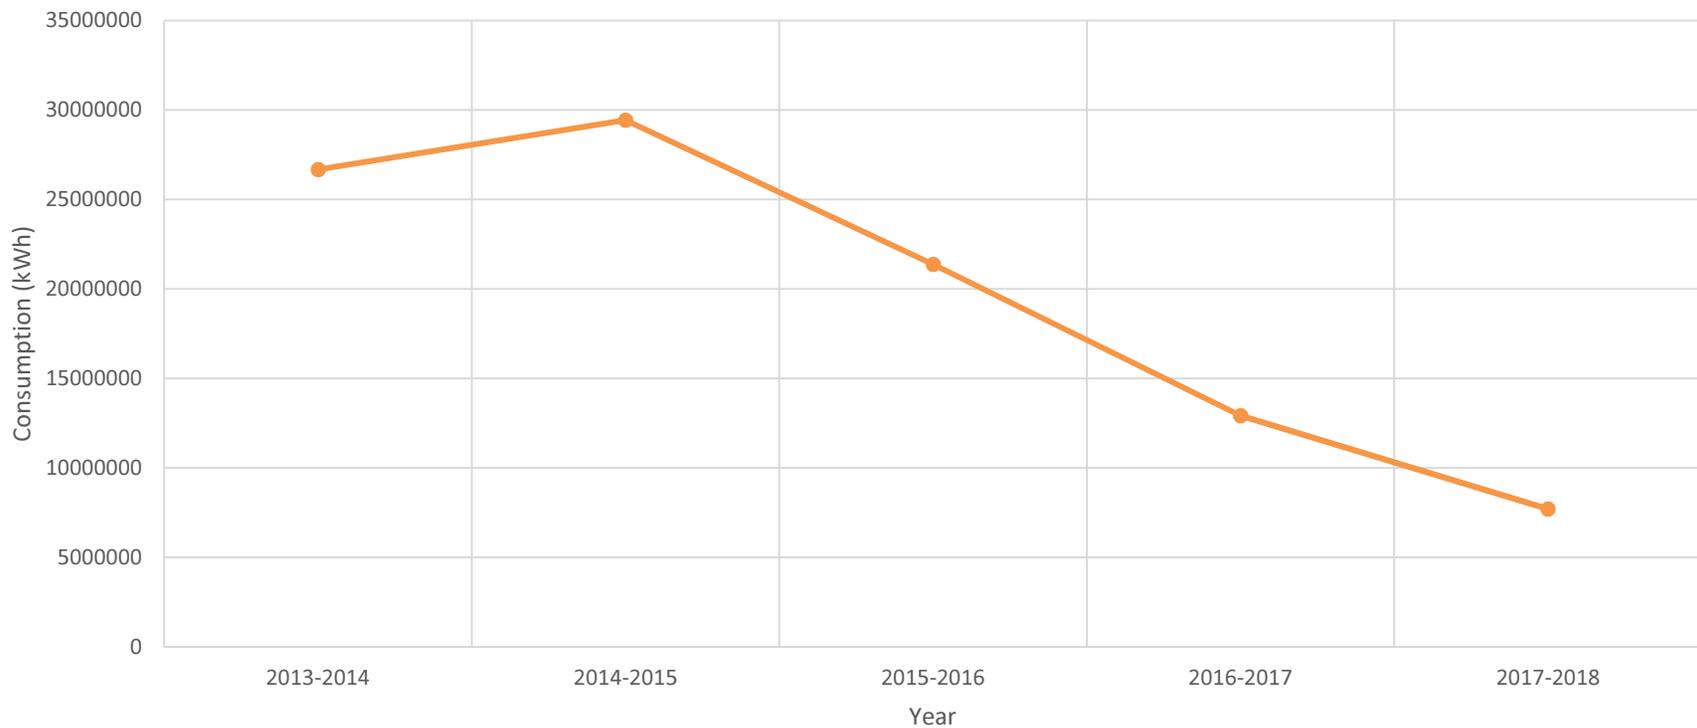

25

Monitor energy consumption from council buildings and estates and develop projects to further reduce our consumption and spend on utilities

Gas Consumption 2013-2018

Monitor energy consumption from council buildings and estates and develop projects to further reduce our consumption and spend on utilities

Water Consumption 2016-2018

27

Use renewable energy and more energy efficient equipment in our buildings

Progress over the past three years

- Monitor the Renewable energy used in our buildings as a % of the total energy use
- Total renewable energy income – based on RHI and FIT payments
- Relocation of IT Server to Exeter
- Global Desktop
- Installation of PV Panels at Heathfield Business Centre and Market Walk

Reduce waste and recycle more from our own operations and buildings

Progress over the past three years

- Improved the office and premises recycling
- Improved the reusing and recycling of surplus office equipment
- Leisure Centre improvements to reduce paper
- Single Use Plastic project
- Reusable cups available from the Canteen and the reduced in the use of plastic cups within Forde House.

What's next?

- Crisp Packet Recycling scheme in our buildings

Use technology to reduce the miles travelled by our workforce

Progress over the past three years

- Monitor this via a miles travelled for work (not to and from)
- Agile working project
- Video conferencing facilities in Committee Room 2
- Workplace travel survey

30

What's next?

- Global Communications project
- Workplace Travel Group

Examine the potential for electric vehicles for the council

Progress over the past three years

- Secured funding for 4 EV charging points
- Highways England EV charge point resilience on A38
- Draft EV and UELV policy agreed by Overview and Scrutiny

31

What's next?

- Installation of the charging points
- Consultation on the EV and UELV Policy

Promote work on reducing our environmental impact to encourage others to do the same

Progress over the past three years

- Officers have publicised the work of Zero Heroes via staff newsletter, Members Newsletter and the new staff information boards at our main sites.

What's next?

- Summer Consultation events on the Council Strategy

Climate Emergency

- Declared at Full Council on the 18th April 2019
- Three principle streams of work
 - Teignbridge District Council operations and assets
 - Teignbridge working within partnerships
 - The District of Teignbridge as part of the county of Devon

33

What next?

- Undertake an audit of existing operations and assets to produce a Carbon Footprint.
- Work with Devon County Council on the wider Devon Climate Declaration
- Using the existing Zero Heroes Project Team to identify the current work and opportunities which would form part of any action plan.
- Report to Full Council within six months with an Action Plan, outlining how the Council will address this emergency.
