Dear Licensing

I would like to apply / request the alternative rear vehicle licensing plate/sticker

Most of my work is providing a specialised type of service associated with the local premier hotel guests where I provide passenger movement for a day or days of their stay.

As an example i was retained for three days for Vogue magazine's production company to support a fashion shoot for the magazine.

More recently picking up from the private terminal at Exeter snd supporting a two day eMTB biking trek for an international financier and Gatwick Airport runs for a local family who live both in Switzerland and the UK

My clients are used to a more exclusive and discreet type of service - my vehicle is suitably appointed exactly for this purpose.

As suggested by the licencing team I ttach a selection of photographs of my vehicle

kind regards

Richard Leonard
