

Good Afternoon

I am writing this on behalf of Cemal Yilmaz.

He owns a Toyota Prius, Hybrid electric/petrol vehicle. The date of first registration was 01/07/2015 but first registration in the UK 01/01/2018. He would like to request that this is considered for licensing in Teignbridge as a private hire vehicle. The vehicle is in excellent condition and currently has PCO licence (Transport for London Private Hire) and it is fitted with a safety screen, as advised on the .gov website. The vehicle is also fitted with three specialist CCTV cameras for taxis/private hire. Mr Yilmaz is keen to start work in Teignbridge having now obtained his badge but to purchase a new vehicle with the specifications of this vehicle is financially something that he cannot achieve in this current climate.

Please could this request be put to the Regulatory and Appeals Committee.

I have attached photos and the V5.

Kind Regards

Hayley Carpenter
