

**The Conservation of Habitats and Species Regulations 2010, Section (61)**

**Habitat Regulations Assessment of Development Plan Document**

**1. Name of the document**

**Plan Teignbridge Local Plan Review 2020 - 2040:  
Issues Consultation 21 May – 16 July 2018**

**2. Is a Habitat Regulations Assessment of this Document Required?**

The Issues Consultation document sets out explanations and options and sets out questions for respondents to reply to. While it refers to existing Local Plan policies and allocations, it does not contain or propose new policies or allocations.

Therefore a Habitat Regulations Assessment of this document is NOT required.

It should be noted that the Local Plan Review Issues Consultation is the first stage of a number to be completed as part of the Local Plan Review preparation. It is highly likely that the final version of the Local Plan Review will require Appropriate Assessment in line with the Conservation of Species and Habitats Regulations 2017.
