Step 1: What do we want to do?

This assessment should be started at the beginning of the process by someone with a good knowledge of the proposal and service area, and sufficient influence over the proposal. It is good practice to take a team approach to completing the equality impact assessment. Please contact the Policy Officer early for advice.

1.1 What are the aims and objectives/purpose of this proposal?

Briefly explain the purpose of the proposal and why it is needed. Describe who it is aimed at and the intended aims / outcomes. Where known also summarise the key actions you plan to undertake. Please use plain English, avoiding jargon and acronyms. Equality Impact Assessments are viewed by a wide range of people including decision-makers and the wider public.

To agree the principles for developing an Investment Plan for the UK Shared Prosperity Fund. This is a three year government fund, with approximately £1.6 million earmarked for Teignbridge. The primary goal of the fund is, 'building pride in places and increasing life chances across the UK.'

1.2 Who will the proposal have the potential to affect?

Service users The wider community Teignbridge workforce

1.3 Will the proposal have an equality impact?

Could the proposal affect access levels of representation or participation in a service, or does it have the potential to change e.g. quality of life: health, education, or standard of living etc.?

If 'No' explain why you are sure there will be no equality impact, then skip steps 2-4 and request review by your manager.

If 'Yes' complete the rest of this assessment.

Yes **No** [please select]

It is proposed to use the fund for a number of purposes that are outlined in the report. In some cases there is potential for a positive equality impact.

Step 2: What information do we have?

2.1 What data or evidence is there which tells us who is, or could be affected?

Please use this section to demonstrate an understanding of who could be affected by the proposal. Include general population data where appropriate, and information about people who will be affected with particular reference to protected and other relevant characteristics (listed in 2.2).

Use one row for each evidence source and say which characteristic(s) it relates to. You can include a mix of qualitative and quantitative data - from national research, local data or previous consultations and engagement activities.

Outline whether there are any over or under representation of equality groups within your service - don't forget to benchmark to local population where appropriate.

For workforce / management of change proposals you will need to look at the diversity of the affected team(s) using available evidence such as the employee profile data. Identify any under/over-representation compared with Teignbridge's economically active citizens for age, disability, ethnicity, gender, religion/belief and sexual orientation.

Data / Evidence Source <i>[Include a reference where known]</i>	Summary of what this tells us
Workshops with stakeholders, invitees as prescribed by Government	Feedback from a range of organisations, businesses and government bodies operating in Teignbridge and serving the community.
Data on impact of previous projects.	That schemes such as business support for neurodiverse individuals and women in business have seen strong uptake and ongoing employment outcomes. This indicates an ongoing need/demand.
Additional comments:	

2.2 Do you currently monitor relevant activity by the following protected characteristics?

<input type="checkbox"/> Age	<input type="checkbox"/> Disability	<input type="checkbox"/> Gender Reassignment
<input type="checkbox"/> Marriage and Civil Partnership	<input type="checkbox"/> Pregnancy/Maternity	<input type="checkbox"/> Race
<input type="checkbox"/> Religion or Belief	<input type="checkbox"/> Sex	<input type="checkbox"/> Sexual Orientation

2.3 Are there any gaps in the evidence base?

Where there are gaps in the evidence, or you don't have enough information about some equality groups, include an equality action to find out in section 4.2 below. This doesn't mean that you can't complete the assessment without the information, but you need to follow up the action and if necessary, review the assessment later. If you are unable to fill in the gaps please state this clearly with a justification.

For workforce related proposals all relevant information on characteristics may need to be sought from HR (e.g. pregnancy/maternity). For smaller teams diversity data may be redacted. A high proportion of not known/not disclosed may require action to address and identify the information needed.

The schemes that have been proposed through the report have been identified at pace to meet a Government deadline. Whilst themes and priorities for Teignbridge's proposed UK Shared Prosperity Fund Investment Plan have been established, more work will be needed to design specific projects if the Investment Plan is approved. For example, the proposed grant for exhibiting, performing and participating in art will require further information about equality groups.

2.4 How have you involved communities and groups that could be affected?

You will nearly always need to involve and consult with internal and external stakeholders during your assessment. The extent of the engagement will depend on the nature of the proposal or change. This should usually include individuals and groups representing different relevant protected characteristics. Please include details of any completed engagement and consultation and how representative this has been of Teignbridge's diverse communities.

Include the main findings of any engagement and consultation in Section 2.1 above.

If you are managing a workforce change process or restructure please refer to HR for advice on how to consult and engage with employees. Relevant stakeholders for engagement about workforce changes may include e.g. staff-led groups, trades unions as well as affected staff.

In line with the government prospectus a range of community and stakeholder groups have been contacted. Many attended an in person workshop but further engagement will be required if the Investment Plan is approved.

2.5 How will engagement with stakeholders continue?

Explain how you will continue to engage with stakeholders throughout the course of planning and delivery. Please describe where more engagement and consultation is required and set out how you intend to undertake it. Include any targeted work to seek the views of under-represented groups. If you do not intend to undertake it, please set out your justification. You can ask the Consultation Officer for help in targeting particular groups.

A stakeholder 'board' is likely to be established to oversee project design and delivery. The board may need to invite additional targeted support.

Step 3: Who might the proposal impact?

Analysis of impacts must be rigorous. Please demonstrate your analysis of any impacts of the proposal in this section, referring to evidence you have gathered above and the characteristics protected by the Equality Act 2010. Also include details of existing issues for particular groups that you are aware of and are seeking to address or mitigate through this proposal.

3.1 Does the proposal have any potentially adverse impacts on people on the basis of their protected or other relevant characteristics?

Consider sub-categories (different kinds of disability, ethnic background etc.) and how people with combined characteristics (e.g. young women) might have particular needs or experience particular kinds of disadvantage.

Where mitigations indicate a follow-on action, include this in the 'Action Plan' Section 4.2 below.

3.2 Does the proposal create any benefits for people on the basis of their protected or other relevant characteristics?

Outline any potential benefits of the proposal and how they can be maximised. Identify how the proposal will support our Public Sector Equality Duty to:

- ✓ Eliminate unlawful discrimination for a protected group
- ✓ Advance equality of opportunity between people who share a protected characteristic and those who don't
- ✓ Foster good relations between people who share a protected characteristic and those who don't

The proposed interventions are intended to result in benefits for women and young girls; neurodiverse individuals; and more socioeconomically deprived residents.

Step 4: Impact

4.1 How has the equality impact assessment informed or changed the proposal?

What are the main conclusions of this assessment? Use this section to provide an overview of your findings. This content should be used as a summary in reports, where this full assessment is included as an appendix.

If you have identified any significant negative impacts which cannot be mitigated, provide a justification showing how the proposal is proportionate, necessary and appropriate despite this.

Summary of significant negative impacts and how they can be mitigated or justified:

Summary of positive impacts / opportunities to promote the Public Sector Equality Duty:

A greater role for a UK Shared Prosperity Fund Board to promote equality through project design and delivery if the proposed Investment Plan is approved by Government. This could involve seeking additional targeted support.

4.2 Action Plan

Use this section to set out any actions you have identified to improve data, mitigate issues, or maximise opportunities etc. If an action is to meet the needs of a particular protected group please specify this.

Improvement / action required	Responsible Officer	Timescale
Stakeholder Board to focus on diversity, seeking support when appropriate, when finalising and launching UK SPF projects	Allie Clark	Spring 2023

4.3 How will the impact of your proposal and actions be measured?

How will you know if have been successful? Once the activity has been implemented this equality impact assessment should be periodically reviewed to make sure your changes have been effective and your approach is still appropriate. Include the timescale for review in your action plan above.

Stakeholder feedback and notes
Monitoring the characteristics of who applies to and uses the various schemes

Step 5: Review & Sign-Off

EIAs should only be marked as reviewed when they provide sufficient information for decision-makers on the equalities impact of the proposal. Please seek review and feedback from management before requesting it to be signed off. All working drafts of EIAs and final signed-off EIAs should be saved in G:\GLOBAL\EIA. Once signed-off please add the details to the 'Corporate Register' of all council EIAs saved in the same directory.
