**Subject:** Re: 2022 Sep 30 - KP66 FYB - New Private Hire

Hello,

We have made payment and the car is ready for the Taxi test tomorrow, can you please advise what time the committee meeting is, the vehicle is booked in for a taxi test at 9:30 Am. Please find attached the photos of the Vehicle in question.

The reason I believe this vehicle is fit to be a taxi is because it was previously licensed and we missed the renewal date, it has a relatively low mileage (66,568) and is only one year too old (2016, 66 plate) to meet the standardised requirements, It is a Mercedes Benz which is a well known reliable and safe vehicle manufacturing firm based in Germany. There are no faults with the vehicles steering or engine, It has been serviced at Mercedes main dealer each time and has full service history, and there are no scratches or dents on the body. The safety measures such as airbags and seatbelts are fully operational, and the steering is flawless. There is no doubt in my mind that this vehicle is safe and comfortable candidate to be a taxi.

Thank you [REDACTED]
