Step 1: What do we want to do?

This assessment should be started at the beginning of the process by someone with a good knowledge of the proposal and service area, and sufficient influence over the proposal. It is good practice to take a team approach to completing the equality impact assessment. Please contact the Policy Officer early for advice.

1.1 What are the aims and objectives/purpose of this proposal?

Briefly explain the purpose of the proposal and why it is needed. Describe who it is aimed at and the intended aims / outcomes. Where known also summarise the key actions you plan to undertake. Please use plain English, avoiding jargon and acronyms. Equality Impact Assessments are viewed by a wide range of people including decision-makers and the wider public.

The Rural England Prosperity Fund builds on and is complementary to the UK Shared Prosperity fund. It supports new and existing rural businesses and new and improved community infrastructure which provides essential services and assets for local people and businesses. The primary goal is to build 'pride in place' and improve living standards in Teignbridge. Underneath this goal there are the two investment priorities: Communities and place and supporting local business. Engagement with stakeholders to inform them of the funding and identify need that will lead to potential projects which fall within these themes.

1.2 Who will the proposal have the potential to affect?

Service users The wider community Teignbridge workforce

1.3 Will the proposal have an equality impact?

Could the proposal affect access levels of representation or participation in a service, or does it have the potential to change e.g. quality of life: health, education, or standard of living etc.?

If 'No' explain why you are sure there will be no equality impact, then skip steps 2-4 and request review by your manager.

If 'Yes' complete the rest of this assessment.

Yes **No** [please select]

The aim is to enhance the quality of life in rural local communities through the funding of several chosen projects that meet the identified themes. We are keen to address rural isolation and connectivity along with rural transport issues. We plan to work with all ages and genders.

Step 2: What information do we have?

2.1 What data or evidence is there which tells us who is, or could be affected?

Please use this section to demonstrate an understanding of who could be affected by the proposal. Include general population data where appropriate, and information about people who will be affected with particular reference to protected and other relevant characteristics (listed in 2.2).

Use one row for each evidence source and say which characteristic(s) it relates to. You can include a mix of qualitative and quantitative data - from national research, local data or previous consultations and engagement activities.

Outline whether there are any over or under representation of equality groups within your service - don't forget to benchmark to local population where appropriate.

For workforce / management of change proposals you will need to look at the diversity of the affected team(s) using available evidence such as the employee profile data. Identify any under/over-representation compared with Teignbridge's economically active citizens for age, disability, ethnicity, gender, religion/belief and sexual orientation.

Data / Evidence Source	Summary of what this tells us
<i>[Include a reference where known]</i>	
LG Inform Teignbridge profile	Basic district stats including population and demographics
Devon Town Profiles	Community health and wellbeing
DCC Facts and Figures	Economic stats
Nomis Labour Market Stats	Economic stats
Central government guidance	Various Town Centre publications including Covid recovery and benefits of diversification

2.2 Do you currently monitor relevant activity by the following protected characteristics?

<input type="checkbox"/> Age	<input type="checkbox"/> Disability	<input type="checkbox"/> Gender Reassignment
<input type="checkbox"/> Marriage and Civil Partnership	<input type="checkbox"/> Pregnancy/Maternity	<input type="checkbox"/> Race
<input type="checkbox"/> Religion or Belief	<input type="checkbox"/> Sex	<input type="checkbox"/> Sexual Orientation

2.3 Are there any gaps in the evidence base?

Where there are gaps in the evidence, or you don't have enough information about some equality groups, include an equality action to find out in section 4.2 below. This doesn't mean that you can't complete the assessment without the information, but you need to follow up the action and if necessary, review the assessment later. If you are unable to fill in the gaps please state this clearly with a justification.

For workforce related proposals all relevant information on characteristics may need to be sought from HR (e.g. pregnancy/maternity). For smaller teams diversity data may be redacted. A high proportion of not known/not disclosed may require action to address and identify the information needed.

None identified currently.

2.4 How have you involved communities and groups that could be affected?

You will nearly always need to involve and consult with internal and external stakeholders during your assessment. The extent of the engagement will depend on the nature of the proposal or change. This should usually include individuals and groups representing different relevant protected characteristics. Please include details of any completed engagement and consultation and how representative this has been of Teignbridge's diverse communities.

Include the main findings of any engagement and consultation in Section 2.1 above.

If you are managing a workforce change process or restructure please refer to HR for advice on how to consult and engage with employees. Relevant stakeholders for engagement about workforce changes may include e.g. staff-led groups, trades unions as well as affected staff.

The councillors and MP's have been consulted throughout the process. We invited representatives of some of the more rural towns in Teignbridge to a meeting where we explained the fund and asked for feedback on how best to spend this money that would answer the needs of more rural communities. We created a group of rural stakeholders representing various elements of the rural community to an initial workshop in order to gauge opinion on the directions of Rural England Prosperity Fund UK within Teignbridge.

2.5 How will engagement with stakeholders continue?

Explain how you will continue to engage with stakeholders throughout the course of planning and delivery. Please describe where more engagement and consultation is required and set out how you intend to undertake it. Include any targeted work to seek the views of under-represented groups. If you do not intend to undertake it, please set out your justification. You can ask the Consultation Officer for help in targeting particular groups.

Engagement will continue through meetings and ongoing communications with the rural stakeholders. We will use our website and social media channels to communicate. MP's will continue to be updated regularly.

Step 3: Who might the proposal impact?

Analysis of impacts must be rigorous. Please demonstrate your analysis of any impacts of the proposal in this section, referring to evidence you have gathered above and the characteristics protected by the Equality Act 2010. Also include details of existing issues for particular groups that you are aware of and are seeking to address or mitigate through this proposal.

3.1 Does the proposal have any potentially adverse impacts on people on the basis of their protected or other relevant characteristics?

Consider sub-categories (different kinds of disability, ethnic background etc.) and how people with combined characteristics (e.g. young women) might have particular needs or experience particular kinds of disadvantage.

Where mitigations indicate a follow-on action, include this in the 'Action Plan' Section 4.2 below.

GENERAL COMMENTS <i>(highlight any potential issues that might impact all or many groups)</i>	
We are unable to identify any adverse impacts. We hope to work with all elements of our rural communities. There will be overall support for access to services, economic sustainability and addressing isolation across rural communities through the Rural England Prosperity Fund investment plan.

3.2 Does the proposal create any benefits for people on the basis of their protected or other relevant characteristics?

Outline any potential benefits of the proposal and how they can be maximised. Identify how the proposal will support our Public Sector Equality Duty to:

- ✓ Eliminate unlawful discrimination for a protected group
- ✓ Advance equality of opportunity between people who share a protected characteristic and those who don't
- ✓ Foster good relations between people who share a protected characteristic and those who don't

The proposal benefits those who live and work in rural communities

Step 4: Impact

4.1 How has the equality impact assessment informed or changed the proposal?

What are the main conclusions of this assessment? Use this section to provide an overview of your findings. This content should be used as a summary in reports, where this full assessment is included as an appendix.

If you have identified any significant negative impacts which cannot be mitigated, provide a justification showing how the proposal is proportionate, necessary and appropriate despite this.

Summary of significant negative impacts and how they can be mitigated or justified:

Ensuring engagement with wider community groups.

Summary of positive impacts / opportunities to promote the Public Sector Equality Duty:

The fund can only have a positive impact on the lives of those living and working in rural Teignbridge by improving connectivity and providing improved and more frequent rural transport.

4.2 Action Plan

Use this section to set out any actions you have identified to improve data, mitigate issues, or maximise opportunities etc. If an action is to meet the needs of a particular protected group please specify this.

Improvement / action required	Responsible Officer	Timescale
We will encourage businesses to implement diversity friendly practices especially where there are receiving business support from Teignbridge District Council	Allie Clark	Ongoing

4.3 How will the impact of your proposal and actions be measured?

How will you know if have been successful? Once the activity has been implemented this equality impact assessment should be periodically reviewed to make sure your changes have been effective and your approach is still appropriate. Include the timescale for review in your action plan above.

We will review this plan quarterly to ensure compliance.
We will measure outputs and outcomes against initial targets.
We will report to Councill Members, MP's and Stakeholders regularly.

Step 5: Review & Sign-Off

EIAs should only be marked as reviewed when they provide sufficient information for decision-makers on the equalities impact of the proposal. Please seek review and feedback from management before requesting it to be signed off. All working drafts of EIAs and final signed-off EIAs should be saved in G:\GLOBAL\EIA. Once signed-off please add the details to the 'EIA Register' of all council EIAs saved in the same directory.
