

The Car is in good condition. Recently had the MOT done with only a few minor faults, might get it sort it out next time when i bring the car in for service. I do a lot of long distance driving for the school run so I have the car service 3 to 4 times a year. Oil change, filter change safety check on the car etc. I get the car clean once every 2 weeks by professional car wash, both inside and outside of the car. So the car is constantly kept clean. BMW makes good car and i believe my car can keep on running for years to come if i look after it properly, which i think i have done so far.

I uses this car everyday and taxing is my only job. I need this car for work and its my only source of income. Please re-license this car so i can carry on doing my job

Many thanks  
Andrew Hiew
