### Regular Monitoring

Monthly reports are prepared for the Chief Finance Officer which forecast interest payable and receivable for the year. The Chief Finance Officer presents a monthly report to CMT and updates the Executive Committee on a quarterly basis. These reports include any policy updates, such as changes to the official lending list, based on the latest ratings information. Full council receives an annual review and strategy statement and a mid-year review.

The interest forecast predicts total net interest receivable for the year of £765,678. This compares to £26,065 in 2021-22. This forecast increase is mainly due to the increase in interest rates. Between April and September 2022, the Bank of England's base rate rose four times, from 0.75% at the start of the year to 2.25% in September. Base rate was at 0.1% throughout the same period in 2021. During the first half of the year, there has been an increase in the funds available for lending out (average daily lending is £41.4 million in 2022-23 compared to £31.9 million at the same stage in 2021-22). This is mainly due to funding received from Government to enable grant payments such as energy rebates and other unapplied grants and developer contributions. The average net interest rate achieved is 1.02% up to the end of September 2022, compared to 0.028% at the same point in 2021. The average SONIA (Sterling Overnight Index Average) rate as published on the first of each month for April to September is 1.065%, so this is in line with benchmark expectations. It is forecast that Teignbridge's average rate for the year will be 1.88%.
