

Dear members of the Committee,

I am writing you this letter as a considerate request to change my normal private driver plate for a minimalist version, due to my line of work and ideal client, which revolves around business/executive travel.

I believe it will have a significant esthetical effect, which can positively impact my business outcome.

For reference, I have attached various pictures with the mark and model of my vehicle.

I am looking forward to your response,

Kind regards,

Ionut Guraliuc
