

Good afternoon,

My name is Razvan Constantin. I've been a taxi driver in the area for more than 12 years now. The car which I actually have has been in my possession since November 2016. I've bought the car with 24000 miles on the clock and I covered 300000 miles plus on it. I consider the car suitable for the taxi trade business, she's in a great nick ( estetically and mechanically ).I look after her carefully having her serviced regularly. I would kindly ask you to give me the permission to carry on using it as a Hackney carriage. I'm doing a lot of long distances trips in it, this car never misses a single bit. I will attach some recent pictures to prove my words. This combined with the recent MOT and taxi test results, I hope will convince you to grant me the permission to use the car in the future. I will assure you when the time will come for her to retire, I will do it straight away.

Thank you very much,  
Sincerely yours.  
Razvan Constantin
