

Onur Committee Request

Good Morning Chairman and committee

I would like to request that my vehicle is considered for licensing for use as Private Hire.

It is a grey Volvo V90. It was 1st registered 1st 10 April 2018 and is 6 years and 10 months old. The vehicle is in excellent condition inside and out. A very smooth and comfortable ride.

I am starting a new private hire business, ONR Luxury Chauffeurs, primarily for the hire of my luxury Mercedes Benz, this has been fitted with seats that face each other, a table, TV screen and mini fridge. I need to get a second car plated as back up but as I am just starting out and having spent a lot of money on the Mercedes I am not in the financial position to buy a new car at the moment.

I appreciate that the policy state that new vehicle application must be under 5 years old but I hope that you will consider my request.

I have attached photographs of both vehicles inside and out.

Yours sincerely

Onur Egitim
