

Dear Licensing Team,

I am writing to apply for a Hackney Carriage licence for my vehicle, registration number FG69 YHU, within the Teignbridge District. I believe my vehicle meets and exceeds the council's standards for licensing, and I would like to highlight the following points in support of my application:

**Vehicle Age and Compliance:** My vehicle was first registered in September 2019, making it approximately 5 years and 6 months old. Teignbridge District Council's policy requires vehicles to be under 5 years old at the time of first registration. While my vehicle is slightly older than this requirement, I believe its exceptional condition warrants consideration.

**Mileage and Condition:** As of its last MOT, the vehicle had recorded 88,000 miles, which is considered low for its age. This low mileage is indicative of reduced wear and tear, contributing to its excellent mechanical condition. The vehicle has been meticulously maintained, with a full-service history available for review.

**MOT and Safety Compliance:** The vehicle has consistently passed all MOT inspections without any advisories, demonstrating its adherence to safety and environmental standards. Copies of the MOT certificates can be provided upon request.

**Comfort and Accessibility:** The interior of the vehicle is in pristine condition, offering passengers a comfortable and pleasant experience. It is equipped with modern amenities to ensure safety and convenience for all users.

**Conclusion:** I acknowledge that my vehicle exceeds the standard age requirement by a few months. However, its low mileage, impeccable maintenance record, and excellent overall condition make it a suitable candidate for a Hackney Carriage licence. I respectfully request that the council consider these factors and grant an exemption based on the vehicle's merits.

Thank you for considering my application. I am available for any further information or inspections required.

Sincerely,

Mahnaz
