

Mr. P Zhao

To whom it may concern,

Please may you consider my vehicle to be put forward and selected as a hackney carriage within the Teignbridge district.

As you can see from its most recent MOT, it has exceptionally low mileage for a car of its age. We have kept this car in immaculate condition and feel it would be an asset to transport the people of Newton Abbot comfortably and efficiently. We have had no mechanical problems with this car and it has been very reliable since owning it.

I feel that this car would help bring up the standard of vehicles licensed within the area, I already have a station permit for a previous vehicle and would be transferring to this vehicle should it be successful. This will also help appeal to commuters and travellers coming from the railway station, adding to the image of its surroundings.

If you would like any more information, please do not hesitate to get in contact.

Kindest Regards
Mr. Peng Zhao
