

Committee Request

John Wilson

H013 19 March 2026

Following on from our telephone conversation last week I will not be able to attend the committee meeting but would like to say a few words as to why I believe this vehicle should be allowed to carry on in service. Today the taxi passed its Hackney test at the council depot. The man that carried out the test said the vehicle was a very fine example of a car for its age. The vehicle is now 11 years old as of January 2026 and has done a total of 95000 miles which I'm sure you would agree is well below average? This vehicle has done 4500 miles in the last year & is only used for a school contract for DCC one hour in the morning and one hour in the afternoon term time only. The vehicle is well maintained, serviced yearly, is very clean inside and out and remains environmentally friendly.

Many thanks

John
