To whom it may concern,

I'm writing to you regarding my new car that I have purchased. It was registered June 2020 and is a Volkswagen Touran. It has done 47000 miles and has full Volkswagen service history. The inside and out of the car are like new it's been very well looked after. I have paid £18990 for the car and I think the price represents the condition of the car. I know that the rule is to have a car under 5 years old and in all my previous cars in the past 17 years as a Teignbridge taxi driver this was achievable but as I require a 6 seater taxi for regular work i already have I had no choice but to but a slightly older car. As I'm sure you're aware the cost of second hand cars has increased massively. I also wanted to stick with a Touran as the seats that make it a 6 passenger car are perfect as a taxi giving customers a good size seat. I did look into newer options but I felt the back seats were too small for adult customers and 6 seater taxis are a much needed asset to the Teignbridge area. With all of the above I hope you will see that this car is perfect to be plated as a Teignbridge taxi. I have attached the video send to me from Volkswagen when I purchased the car and you can see how lovely the car is. It has also just had a Mot and service new brakes and tyres and is ready to go to work.

Kind regards
Charlotte Cooper
