

Sally is doing vastly reduced hours from before, and this vehicle is one of two she has. So only really needs it for peace of mind. If she suffers a breakdown or when her main taxi is off the road for servicing etc.

while it may seem extravagant to run two taxis without them both OTR at the same time I.e. with dedicated drivers. She needs the certainty of knowing she can cover bookings

H376 is in better condition than many taxis half its age because we have always maintained it to the highest standard. No major accidents, just everyday minor knocks and always properly repaired in timely fashion, the interior is also kept in good order. The photographs clearly show the care taken.
