Regular Monitoring

Two monthly reports are prepared for the Chief Finance Officer: a forecast of interest receivable for the year, and an investment comparison, which shows the sum available for investment compared to the previous year. The Chief Finance Officer presents a monthly report to CMT and updates the Executive Committee on a quarterly basis. These reports include any policy updates, such as changes to the official lending list, based on the latest ratings information. Full council receives an annual review and strategy statement and a mid-year review.

Appendix 4

The interest forecast is currently predicting a total net interest receivable for the year of £96,449.74. This takes into account the base rate rise on 2 August 2018 and compares to £39,839.52 in 2017-18. This forecast increase is mainly due to higher interest rates (an average of 0.61% for the first half of the year, compared to 0.26% in 2017-18), although there has also been an increase in the funds available for lending out (average daily lending is slightly higher in the first half of 2018-19 at £13.3 million compared to £10.4 million at the same stage in 2017-18). Average benchmark 7-day LIBID rate to the end of September 2018 was 0.52%.

Treasury Management Indicators

These are part of the Prudential Indicators, as agreed at Full Council on 22 February 2018. They are available on request or on the Teignbridge website agenda for that meeting.
