This paper provides the Audit Scrutiny Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a Council, or where not directly relevant of interest; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes).

Members of the Audit Scrutiny Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications. Click on the Grant Thornton logo to be directed to the website www.grant-thornton.co.uk.

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at June 2019

Financial Statements Audit

Our audit risks were reported to you in our Audit Plan in March 2019 at Audit Scrutiny Committee. We also reported the results of our interim work at the March 2019 Audit Scrutiny committee.

Since the March Audit Scrutiny Committee we have been working closely with officers on changing and emerging financial reporting requirements as the draft financial statements are produced.

At the time of writing this report we have received the draft financial statements. These were submitted for audit by the statutory deadline (30 May 2019).

The statutory deadline for the Council to publish its accounts is 31 July 2019.

The final accounts audit will commence during June with our high level review of the draft financial statements and completion of our VFM work. Our onsite work is due to begin on the 1 July with findings reported to you in our Audit Findings Report.

We will present our report at the 17 July Audit Scrutiny Committee meeting and issue our audit opinion by the 31 July deadline.

We have recently issued the fee letter for the 2019/20 audit. This letter reports the fee set by PSAA. The fee set for 2019/20 is £37,240. This has been held at the 2018/19 level. Our fee letter is an item on this agenda.

Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties.

We have undertaken our initial risk assessment and have set out in our Audit Plan the significant risk identified. The risk identified is:

- The arrangements for achieving Financial resilience.

We have met with officers to discuss this risk and our work in this area continues. We will report the findings of our work against this risk in the Audit Findings Report by the deadline in July 2019.

Other areas

Certification of claims and returns

Since the March 2019 Audit Scrutiny Committee report officers have confirmed our appointment to complete the certification of the Council's 2019/20 HB subsidy return. This work will be completed in August 2020 to November 2020.

Meetings

We met regularly with the Finance team as part of our liaison meetings and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

Events

We provide a range of workshops, along with network events for members and publications to support the Council. Teignbridge District Council was represented at our Financial Reporting Workshop in February 2019.

These workshops are designed to ensure that members of your Finance Team are up to date with the latest financial reporting requirements for local authority accounts.

Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

Audit Deliverables

2018/19 Deliverables	Planned Date	Status
Fee Letter Confirming the audit fee for 2018/19.	March 2018	Complete
Accounts Audit Plan We are required to issue a detailed accounts audit plan to the Audit Scrutiny Committee setting out our proposed approach in order to give an opinion on the Council's 2018/19 financial statements.	21 March 2019	Complete
Interim Audit Findings We will report to you the findings from our interim audit and our initial value for money risk assessment within our Progress Report.	21 March 2019	Complete
Audit Findings Report The Audit Findings Report will be reported to the July Audit Scrutiny Committee.	17 July 2019	Not yet due
Auditors Report This is the opinion on your financial statement, annual governance statement and value for money conclusion.	17 July 2019	Not yet due
Annual Audit Letter This letter communicates the key issues arising from our work.	August 2019	Not yet due
Annual Certification Letter This letter reports any matters arising from our certification work.	November 2019	Not yet due

Sector Update

Councils are tackling a continuing drive to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider Local Government Sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with Audit Scrutiny committee members, as well as any accounting and regulatory updates.

National Audit Office – Planning for new homes

The National Audit Office (NAO) has recently published a report on *Planning for new homes*. This report is part of a series on housing in England, including *Housing in England: overview (2017)* and *Homelessness (2017)*. The latest report focuses on the Ministry of Housing, Communities and Local Government's (MHCLG's) objective for housing in England to deliver a million homes by the end of 2020; half a million by the end of 2022; and to deliver 300,000 net additional homes a year on average.

The report recognises that increasing the supply of new homes is a complex task and one of the measures MHCLG has introduced to help achieve the objective is reforming the planning system. The report notes that the planning system is fundamental to providing new homes and it assesses how effectively MHCLG supports the planning regime to provide the right homes in the right places through:

- supporting local authorities to produce plans for how the supply of new homes will meet need in their area;
- supporting local authorities and the Planning Inspectorate in having effective and sufficiently resourced planning processes and teams to deal with planning applications and appeals; and
- working effectively with local authorities, other government departments and developers to ensure infrastructure to support new homes is planned and funded.

The report finds that at present, the system is not providing value for money and that the supply of new homes has failed to meet demand. It notes that a number of factors have contributed to the planning system not working and some of these include:

- the process of setting the need for new homes;
- the reductions in local authority capability;
- the under-performing Planning Inspectorate; and
- failures in the system to ensure adequate contributions for infrastructure.

The report recognises that MHCLG's new National Planning Policy Framework is an important step, but it is too early to tell whether the changes it introduces will be effective. The report also makes a number of recommendations for MHCLG to implement alongside the framework to help the planning systems work more effectively.

The report concludes that the Department and government more widely need to take this much more seriously and bring about improvement if they are to meet their ambition of 300,000 new homes per year by the mid-2020s.

The report is available on the NAO website:

<https://www.nao.org.uk/report/planning-for-new-homes/#>

NAO Report

Challenge question:

Has your Authority got a robust plan in place to deliver the additional houses needed over the next five years?

National Audit Office – Pressures on children’s social care

The Local authorities in England have statutory responsibility for protecting the welfare of children and delivering children’s social care. In extreme cases they may use their statutory powers to place children in need on protection plans or even take them into care. Local authorities are also responsible for delivering non-statutory services for all children and young people, such as children’s centres. The Department for Education (the Department) provides statutory guidance on delivering these functions. It also has overall policy responsibility for children’s services, and has the strategic vision that all vulnerable children, no matter where they live, should have access to high-quality support by 2022.

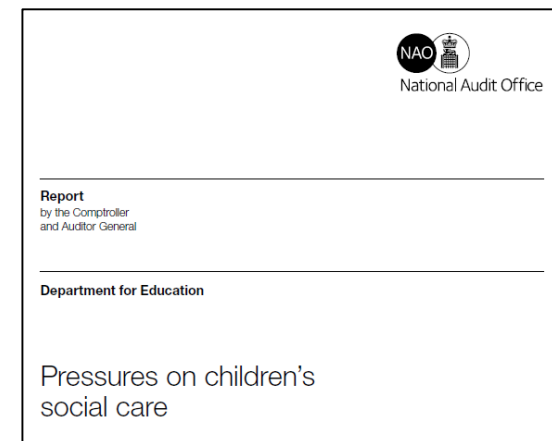

The report sets out recent trends in pressures on children’s social care demand and activity and the response of both national and local government to these pressures. It also sets out analysis the NAO conducted about what is causing variations in children’s social care demand and activity between different local authorities. The report covers:

- the pressures on children’s social care;
- the response of national and local government to increasing demand for children’s social care; and
- NAO analysis of what is causing variations in demand for children’s social care between local authorities.

The report notes that, while the Department has put in place a programme of reform, it still does not fully understand what is driving demand for children’s social care or why there is such wide variation between local authorities in their children’s social care activity and costs. It has not yet done the work to tie together available sources of information and therefore lacks a well-informed pathway to achieve its goal. While the Department has recognised the need for this analysis, it will not complete the work until summer 2019. Even if its analysis is completed successfully it will be a tall order for the Department to achieve its goal within three years.

The report is available on the NAO website:

CIPFA – Social Care risk tool

The Chartered Institute of Public Finance and Accountancy (CIPFA) and the Association of Directors of Adult Social Services' (ADASS) have updated the Social Care Risk Tool; an advisory risk assessment tool for discretionary use by councils with adult social care responsibility.

The tool's objective is to help authorities assess whether unsustainable financial pressures might be faced by the adult social services department. It seeks to do this by assessing the extent to which various risk factors apply. This is the third version of the risk tool and it has been expanded to include new risks that have emerged since the previous version. In addition, a number of risks have been revised to make them clearer.

The risk assessment adopts a survey format and covers the following areas:

- savings;
- local pressures; and
- culture and relationships.

Each of the areas above includes a series of questions (or indicators), and authorities are required to assess whether the indicators are strongly present (score of 5); only present to some extent (scores 2 to 4); or not at all (score of 1). The total score helps to give an indication of where the authority lies. The maximum score is 195 (there are 39 questions altogether) which represents the highest risk possible. Some of the metrics (particularly those relating to unit costs) are more illustrative than prescriptive and local authorities may wish to adjust these to reflect their local circumstances.
