Regular Monitoring

Two monthly reports are prepared for the Chief Finance Officer: a forecast of interest receivable for the year, and an investment comparison, which shows the sum available for investment compared to the previous year. The Chief Finance Officer presents a monthly report to CLT and updates the Executive Committee on a quarterly basis. These reports include any policy updates, such as changes to the official lending list, based on the latest ratings information. Full council receives an annual review and strategy statement and a mid-year review.

The interest forecast is currently predicting a total net interest receivable for the year of £35,084.82. This takes into account the base rate rise on 2 November 2017 and compares to £35,608.20 in 2016-17. The total forecast interest is therefore broadly similar to the amount earned in the previous year. Average daily lending is slightly higher in 2017-18 at £12.3 million compared to £9.7 million in 2016-17. However, average interest rate is lower at 0.28% compared to 0.37% in 2016-17. Average benchmark 7-day LIBID rate to the end of September 2017 was 0.19%.

Treasury Management Indicators

These are part of the Prudential Indicators, as agreed at Full Council on 21 February 2017. They are available on request or on the Teignbridge website agenda for that meeting.
